TOO COOL AND TOO WET IN MISSOURI VALLEY.

Winter Wheat Suffers From Exces ive Rains- Big Improvement Noted in Cotton.

Washington, June 7.-The Weather Bu reau's weekly summary of crop conditions

While too cool for best results in portions of the lake region and in the Missouri Valley and Northern Rocky Mountain districts, with excessive moisture and lack of sunshine in the Central Mississippi and Lower Missouri Valleys, the week as a whole has been very Javorable in the districts east of the Rucky Mountains. Drought in the South Atlantic and East Guif States has been very generally relieved, although moverain is needed in portions of Plorida and in contral and west Guife-Toast districts. The North Pacific Coast also experienced favorable weather, but in California nearly all crops were injured by continued drying north winds. Over the western portions or the corn belt the growth of corn has been checked by lack of warmth and sunshine, and it is much in need of cultivation, while in the central and eastern districts, planting and replanting have been delayed by rains. Poor stands are reported from the lake region, Ohio Valley and Middle Atlantic States. In the Southern States the general condition of corn is promising, although rain is needed in the central Guif Coast districts. WINTER WHEAT.

Winter wheat has suffered somewhat from seary rains in portions of Oklahoma and Missouri's elsewhere the crop has advanced favorably, but the outlook over the eastern portion of the winter wheat belt continues unpromising, ulthough more or less improved in the Oblo Valley and Middle Atlantic States. Wheat is now heating as far north as the Central Mississippi Valley, harvesting being general in the Southern States. On the North Pacine Coast the crop has advanced favorably and the country of the crop has advanced favorably and the admir, in California it is maturing rapidly, the late snwn baving been seriously damaged by hot winds.

With the exception of some weedy fields in South Dakota, spring wheat is in very promising condition in all districts.

Outs have made viscous growth throughout the central valleys and Middle Atlantic States, and a spearal improvement in the condition of this crop is indicated in nearly all districts. Seeding is now practically finished in the externe northern sections and harvesting continues in Southern States.

As a whole, there has been a decided im provement in the condition of cotton over near y the whole of the cotton beit. The crows as however, suffered some damage in Okia some and Indian Territory from overflows an room insufficient moisture in scattered local is in Louisiens. Rapid growth and a good take of cultivation are generally indicated tell weeville are increasing rapidly and doiny nutritorable damage in a number of south restern and south central counties in Teans. The week has been exceptionally ravorable to transplanting tobacco, and this work has devanced estimated by the condition of the country of the COTTON.

GOMPERS BITTER TOWARD PEABODY.

Labor Leader Declares Governor of Colorado Personally Responsible for Riots.

CALLS HIS ACTIONS LAWLESS.

Voluntary Arbitration of Miners' Disputes and Legislative Investigation of State Officials Suggested as Remedy.

REPUBLIC SPECIAL Washington, June 7.-Samuel Gompers president of the American Federation of Labor, sitting in his office to-day, de nounced in terms unmistakably bitter Governor Peabody of Colorado and blamed him as the one man above all others re sponsible for the reign of terror in that State.

In an interview given to The Republic correspondent he called the Governor a flagrant violator of civil laws and human rights, and made him directly responsible for all the rioting and bloodshed.

"Governor Peabody," said Mr. Gompers has done more by his acts to provoke bitterness than all other elements in Colo rado combined. If he acts the outlaw himself, the highest officer of the State. is the unfortunate situation surprising?" Voluntary arbitration of the labor difficulties and a special session of the Legislature to investigate the Governor, General Bell and the officers of the Miners

Federation, Mr. Gompers suggests as solution of the situation. As for the dynamite outrage of yesterday, he had only words of denunciation and said that he could not conceive that it was the work of any organized body of men.

DISCREDITS PLOT THEORY. "I cannot believe," continued Mr. Gom pers. "that such an act of lawlessness was the result of any prearranged plan of any body of miners. It must have been an individual act. The Western Federation of Miners is not affiliated with the American Federation of Labor, but I can say that I do not believe that such an act can be traced to any union.

"I have watched the Colorado stuation with great care, and was on the ground for two weeks this spring, and had opportunity for personal investigation. I am to-day more than ever firm in my belief that the acts of Governor Peabody himself were originally and solely responsible for the present situation.

"As the highest official of the State, he is a creature of the smelters and mine owners. They were responsible for his nomination and election, and he promised them that he, as Governor, would prevent the enactment of the eight-hour law. No one denies this. He is either given credit for it on the one side, or denounced for it on the other. There is no dispute about the fact itself.

"The eight-hour law in Colorado, you will remember, was declared unconstitutional by the courts. The Legislature pers, "that such an act of lawlessness was

"The eight-hour law in Colorado, you will remember, was declared unconstitutional by the courts. The Legislature then submitted a constitutional amendment which was adopted by the people by a large majority, not only empowering, but obligating the Legislature to enact the eight-hour law. By this process it was entirely constitutional, but Governor Peabody kept his word to the mine owners, and prevented the Legislature from taking the final steps."

MARTIAL LAW. "That was oly the beginning of the trouble. When the miners, independent of the legislative action, asked for an eightwia Naples.

men, June 7.—Arrived: Kron Prinz State. Making a mere street brawl the pretext, and without request and without any authority, he declared martial law. There is hardly a constitutional provision in favor of individual liberty or personal security that he has not violated. Men have been imprisoned without warrant, held without charges and no opportunity for hearing granted.

held without charges and no opportunity for hearing granted.
"Others have been driven from their homes and forbidden to return on pain of personal violence or death. A citizen's home is almost the highest citizen's right. Men have been deported from their homes in groups without process of law and without being directly charged with any offense. In one case an attorney employed by a miner's union was shot because he resisted such deportation.

HOSTILITY PROVOKED.

HOSTILITY PROVOKED. "In short, the acts of the Governor a the manner of his acts have all tended to the manner of his acts have all tended to provoke, rather than to allay, hostilities. Under such circumstances the present situation of lawlessness is not surprising. If civil law is to be trampled under foot by the highest officer of the State, sworn to enforce such law, no one can deny that citizens themselves are encouraged thereby to a spirit of disregard for law and the rights of others. I reiterate Governor Peabody has violated plainly and most shame-lessly all legal and human rights and is directly responsible. His own acts are nothing less than anarchy.

"I wish also to say that from my personal observations in Colorado I found that the so-called Citizens' Alliance was a provoker of trouble rather than a pacifier. The siliance is nothing less than a body of capitalistic anarchists. There is nothing that has been charged against organized labor that its members themselves have not been guilty of."

"How do you view the action of the troops yesterday in dispersing the mass meeting?"

"I regret and criticise that as much as I do the dynamite outrage. The right of speech at such meetings is often a safety valve, and to prevent it often causes a more serious explosion."

"Do you look for any Federal interference." provoke, rather than to allay, hostilities

"Do you look for any Federal interfer

"Do you look for any Federal interference?"

"This is not an interstate matter," was Mr. Gomper's reply, "but wholly within one State. The United States Government is not involved, as was the case in the Chicago strikes, and I cannot see any constitutional or legal authority at present for the United States Government to take a hand in this matter. This can only be brought about by an appeal to the central Government by the State Legislature or, if the Legislature is not in session, by the Governor, I do not understand that there is any prospect for such an appeal."

Governor Peabody Returns. Governor Peabody of Colorado left St. Louis on the Chicago, Burlington and Quincy train at 2:15 o'clock yesterday aftcomery train at 2:16 o'clock yesterday afternoon for Denver. Before his departure the Governor said: "Telegrams received this morning show that the situation at Victor is very much improved, and that comparative quiet is maintained. The Lieutenant Governor has the situation very well in hand, but I have deemed it best to return at once, in case other compilications should arise."

INDIANS FIGHT WITH TOMAHAWKS

Apache Indian, Jealous of Sioux Maiden Who Jilted Him, Has *Bloody Battle With Successful Rival.

Angered by the threat of Knee Deep. in Apache Indian, to kill him because he was _oing to marry Princess Bright Eyes, s Sloux maiden, who had jilted the wild Apache, Chief Eat Big Snakes, a Sioux. challenged the Jealous Indian to a combat yesterday afternoon at the World's Fair and a tomahawk fight ensued.

blow, with an ugly gash in his skull, but not before he had cut off half the right ear of Knee Deep. Chief Eat Big Snakes was not knocked into insensibility, however, and, springing to his feet, he ran to his tepee like a deer. Knee Deep, his blood boiling with anger, returned to his tepee, secured a revolver and started for the tepce of his rival. .

Colonel Cummins, who brought the Indians to the Fair; Colonel Asay and ten policemen arrived just in time to prevent tragedy. After much effort, they sub dued Knee Deep, and locked him in an iron cage, where he will be kept until he can be returned to the United States authorities at Fort Sill, Ok.

The Indian romance which led to the battle yesterday afternoon began ten years ago, when Knee Deep made a trip into the Sloux country and met Princess Bright Eyes, with whom he fell in love. She returned his love and promised to marry him within a year.

Knee Deep then returned to the Apache ountry, and every day for three months the young warrior from the South and the romantic maiden from the Dakotas wrote to one another. Three months after meeting Princess

Bright Eyes, Knee Deep had a quarrel with a feroclous Indian, who had earned the name of Kills-'Em-Quick. He had slain seven men. Kills-'Em-Quick struck at Knee Deer with a long knife. Knee Deep warded off the blow and stabbed his antagonist in

the jugular vein with a pocketknife. The sight of blood maddened Knee Deep and he cut his opponent into shreds. He was sentenced to life imprisonment. It so chanced that Kills- Em-Quick was

a relative of Princess Bright Eves and when she learned of his violent death she wrote a letter to Knee Deep, breaking off their engagement. Knee Deep, however never forgot his Minnehaha in the North Princess Bright Eyes met Knee Deep at Cummins's Indian Congress, but a used to speak to him. This angered Kn. Deep. and when he learned that she is engaged to marry Chief Eat Big Snakes on June là he became mid with jealousy. He made numerous threats to kill his rival, and yesterday a battle between the two red men resulted.

FLOOD REPORTS UNFOUNDED. Forecaster Bowie Says the North-

ern Rivers Are Falling. Weather Forecaster Edward H. Bowie stated yesterday that the reports being circulated that St. Louis is threatened with a big flood this summer, are without

foundation.
"At present," he says, "the rains in the river valleys north and west of St. Louis have ceased, and all rivers north of that point are falling. Any further rise in the rivers will be the result of heavy rains, the predetermination of which is beyond the power of a man; hence, any prediction, no matter what its source, of a great flood at St. Louis at some indefinite time this summer, is absolutely without basis and unworthy of belief."
